Unseen Passage for Class 9 Students

Unseen Passage 6: Understanding the Importance of Water Conservation

Water is a precious resource essential for all forms of life on Earth. It covers about 71% of the Earth's surface, yet only a small percentage of this is freshwater available for human use. Water conservation is crucial to ensure sustainable access to clean water for future generations. Many regions around the world are facing water scarcity due to overuse and pollution.

Questions:

1. Why is water conservation important?
2. What percentage of the Earth's surface is covered by water?
3. Explain the term 'water scarcity' in your own words.
